David Vargas

Senior Frontend Engineer

 Bogotá, Colombia (Open to Remote US) | david-vargas.vercel.app | davidvargash.1991@protonmail.com | LinkedIn: https://www.linkedin.com/in/david-vargas-herrera-8aa700137/ | GitHub: https://github.com/davidvargash1991

SUMMARY

Senior Frontend Engineer with 6+ years specializing in building scalable, performant, and accessible web applications using React, Next.js, and TypeScript. Proven success working with US-based clients like Zenfolio and The Cleveland Museum of Art, delivering production-ready solutions with CMS integrations, API architecture, performance tuning, and accessibility compliance. Experienced in reviewing code, mentoring, and contributing to frontend architecture decisions in distributed teams.

TECHNICAL SKILLS

React.js, Next.js, TypeScript, Tailwind CSS, JavaScript, HTML/CSS, Sass, Material-UI
Testing: Jest, React Testing Library, Vitest
Backend: Node.js, Express, .NET Core, REST APIs
Tools: GitHub, CI/CD, Vercel, Azure, GCP
Other: Drupal CMS, Accessibility (WCAG), Performance Optimization, Agile/Scrum

PROFESSIONAL EXPERIENCE

React Developer – Adecco (Remote)

Aug 2024 – Feb 2026

- Contributed to Home Depot's internal dashboard, integrating frontend with Vertex AI pipelines.
- Migrated components from Webpack to Vite, resolving Vitest and CI issues with GitHub Copilot.
- Built unit tests using React Testing Library, increasing coverage and reliability.
- Developed API layer using Express for secure and scalable data fetching.

Fullstack Developer – Fitelco Red SAS (Remote, Contract)

Jun 2024 – Jul 2024

- Delivered end-to-end inventory application using ASP.NET Core + React + React Query.
- Owned planning, backend integration (EF Core), and responsive frontend UI.

Senior Frontend Engineer – Truelogic Software (Remote)

Apr 2019 – May 2024

- Led frontend development for Zenfolio and Cleveland Museum of Art, serving tens of thousands of monthly users.
- Built scalable applications using React, Next.js, TypeScript, Redux, and Tailwind CSS.
- Developed CMS-driven page rendering architecture using Drupal, with reusable component-based design.
- Focused on performance (Core Web Vitals, Lighthouse) and accessibility (WCAG compliance).
- Built advanced UI features: drag-and-drop builders, custom carousels, and 3rd-party API integrations.
- Participated in architecture decisions, code reviews, and mentoring junior developers.

PREVIOUS EXPERIENCE (Condensed)

Roles from 2011–2018: Fullstack and .NET developer in logistics, payments, ERP, and CMS systems.
Used tech including C#, ASP.NET MVC, SQL Server, JavaScript, and Google Maps API to build internal tools and data integrations for clients in Colombia.

EDUCATION

Técnico en Mantenimiento de Computadores
Centro Andino de Estudios Técnicos, Bogotá – 2010
